The 23rd International Congress of the Women's International League for Peace and Freedom, 23 - 29 July 1986 in Zeist, the Netherlands:

Since the arms race is not only the worst threat to all children of the world but is also disastrous to all development,

WILPF urges all women to join forces in a global women's network to stop the destructive arms race and use the planet's dwindling resources for development and creative and life-giving purposes instead of inventing more and more sophisticated killing methods.

Then and only then might we have a chance to encourage development and end the famines of this world.
