Resolution

The 10th Triennial Congress of the Women's International League for Peace and Freedom, 4-9 August 1946 in Luxembourg, Luxembourg:

The 10th Congress of the Women's International League for Peace and Freedom, in session at Luxembourg from 4th-9th August 1946, reminds the military and other bodies now in charge of displaced persons in camps, of the need for recognition of human dignity in dealing with them and of the need for the maximum amount of work and freedom that is possible, so that they may be fitted to retake their place in normal human society at the earliest available opportunity.
